**Head Teacher:** Mr. D. Malins

16<sup>th</sup> July 2020

Dear Parent / Guardian(s)

Thank you for your great support during these challenging times. We have been impressed with how the young people have engaged with the online work and shown real resilience in the face of adversity. There will be a few changes in September to minimise the risk of infection, however, we are aiming for the return to school to be as normal as possible. The students will still have all of their subjects and virtually the same amount of teaching

### September opening

The key differences are that:

- Students will not register in their form groups in the morning and afternoon. They will register in their first and last lessons of the day
- Students will have an extended form time once a week. This will not be in their normal form group, but will be in their science set.
- There will be staggered times for starts, lunches and finishes to the day to minimise mixing of year groups
- Students will have most of their lessons in one classroom and the teachers will move to them.

The year 10 timetable will look like the one to the right →

The students will receive details about the subject and option rotas closer to the start of term

Year 10's first day will be on **Friday September 4<sup>th</sup>**. They should arrive at 8:45 to be in their classroom for a **9 am prompt start**. Year 10 will be based predominantly in Science classrooms.

The government may change their advice about school openings, in which case we will update you on any developments. You will receive an update child's final timetable the week before term starts. This will also show the key classroom that will be their base for most of their lessons.
